DETAILED ACTION

1. This is in response to the Applicant's amendments and arguments filed October 11, 2004 in which claims 1, 3-5, 7, 9, 11-13, 15-19, 21, 23-25, 27, 29, 31, 33, and 35-36 have been amended, and claims 2, 14, and 26 have been canceled. Claims 1, 3-13, 15-25, and 27-36 are currently pending.

Allowable Subject Matter

2. After a further search and thorough examination of the present application and in view of the applicant's arguments and amendments, claims 1, 3, 4, 10, 5-9, 11-13, 15, 16, 22, 17-21, 23-25, 27, 28, 34, 29-33, 35, and 36, renumbered as 1-33 respectively, are found to be in condition of allowance.

3. The following is an examiner's statement of reasons for allowance: the cited prior arts teach obtaining terminal utilization status/environment information including time, date, and current location of the terminal. The cited arts further teach the contents of the current terminal utilization status information, including date, time, place, application, and network environment are copied into corresponding items of utilization status prediction.

As per claims 1, 3, 4, 9, 10, 13, 15, 16, 21, 22, 25, 27, 28, 33, and 34, the Applicant teaches a plurality of user records having position and time information, and adding the location description from the determined transmitting device record to at least one user record having one position coordinate within the proximity to the position coordinate of the determined transmitting device record. These limitations, in

conjunction with all limitations of the independent and dependent claims, have not been disclosed, taught, or made obvious over the prior art of record.

As per claims 5-6, 17-18, 29-30, the Applicant teaches adding the location description from at least one transmitting device records to at least one user record associated with the user of the wireless device, wherein the user records further include a list of identifying one or more transmitting devices within a proximity to the wireless device of the user, and wherein the added location description is from one transmitting device record for one transmitting device identified in the list. These limitations, in conjunction with all limitations of the independent and dependent claims, have not been disclosed, taught, or made obvious over the prior art of record.

As per claims 7-8, 19-20, 31-32, the Applicant teaches adding the location description from at least one transmitting device records to at least one user record associated with the user of the wireless device, wherein the user records further include a list of identifying one or more transmitting devices within a proximity to the wireless device of the user, receiving with the user wireless device, wireless transmissions from proximate transmitting devices, wherein each wireless transmission identifies one transmitting device, and adding to the list each transmitting device identified in each wireless transmission. These limitations, in conjunction with all limitations of the independent and dependent claims, have not been disclosed, taught, or made obvious over the prior art of record.

As per claims 11, 23 and 35, the Applicant teaches providing records for transmitting devices, wherein each transmitting device record includes at least one

position coordinate and an associated location description providing information on the position coordinate of the transmitting device, wherein at least one transmitting device record indicates a location boundary defining multiple position coordinates, wherein the location description in the transmitting device record provides information on the location boundary. These limitations, in conjunction with all limitations of the independent and dependent claims, have not been disclosed, taught, or made obvious over the prior art of record.

As per claims 12, 24, and 36, the Applicant teaches providing records for transmitting devices, wherein each transmitting device record includes at least one position coordinate and an associated location description providing information on the position coordinate of the transmitting device, wherein the location description added from the transmitting device record to the record associated with the user include a multimedia file providing information in a multimedia format on the location. These limitations, in conjunction with all limitations of the independent and dependent claims, have not been disclosed, taught, or made obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
